

MONJASA

OUR DNA

Monjasa is one of the world's leading bunkering suppliers within the bunkering industry. With offices in all major time zones, our young, dynamic and highly qualified trader teams, together with our professional administration staff, we are always ready to provide you with the best service and fuel products available.

ABOUT MONJASA

The bunkering company was established in 2002 when two second-hand mobile phones company founders, Jan Jacobsen and Anders Østergaard set the course for Monjasa on the international bunkering market from a small office in Kolding, Denmark. Today, Monjasa employs some 600 skilled bunker traders and maritime specialists, and boasts with a global fleet of more than 30 supply tankers.

The Monjasa Namibia office opened its doors on 1 July 2014 in Walvis Bay, to enable vessel owners and shipping companies easier access to bunkering services along the west coast of Africa. Monjasa is committed to delivering best product sources, considering price, quality, environment and general performance.

Our range of bunkering products comply with **ISO 8217** quality control standard. The most common bunker fuel grades supplied are:

- IFO-380 3,5% (ISO 8217: 2010: RMG 380)
- VLSFO 0,5% (ISO 8217: 2010: RMG 380)
- MGO 0,1% (ISO 8217: 2010: DMA)
