

**Ocean Liner
Services**

About Us

Ocean Liner Services is part of a group of integrated logistics and marine service focussed companies. The group evolved from the humble beginnings of the only vessel agent in Walvis Bay in 1924 to Namibia's leading logistics company. Ocean Liner Services was officially established in 2005 in order to refocus the group's existing liner and

non-liner port agency services into a single service offering.

Ocean Liner Services provides complete ships agency and husbandry services, 24 hours - 7 days a week. We operate from the port of Walvis Bay and service all types of liner and non-liner vessels including container ships, tankers, fishing trawlers, RO-ROs, rigs, supply vessels, drill-ships, naval vessels, passenger and cruise ships.

We arrange everything for the master/owners and charterers within the confines of the law. Through our sister companies we also provide complete logistics services for break-bulk, dry-bulk and reefer transshipments, shipping, cross-border freight, import and exports, warehousing and short-haul transport.

Ocean Liner Services is part of Manica Group Namibia, and enjoys access to a wide variety of services and products. This ranges from clearing & forwarding, warehousing, launch services, bunkering, transport, lubricants to mention a few. The Manica brand is focussed on providing the highest quality of services and products at affordable rates.
